About Me:

Lim Qing E

■ BACKGROUND

- Academic Graduate in Data Science & Business Analytics
- Highly involved in the Fitness Industry/Events
- Visited Gyms locally (ActiveSG/FitnessFirst/School-based/others) & overseas (e.g Small enterprises - Korea & local gov ones - Taiwan)
- Mainly engaged in ActiveSG Gym facilities (Gym;regular basis, Ball Courts;monthly, Pool;once in a blue moon)

Why am I doing this? I would like to give back using my skill sets & would want to help tackle existing (and anticipating future gaps) in the local scene.

Vision

■ Empower the Community Users & Employee Staffs

Empowerment by being receptive with both Internal & External feedback.

Taking feedback & creating/ providing solutions that aligns with their needs yet simultaneously not lowering current standards

■ Tackle Issues through sustainable solutions

Solutions can be made by leveraging using available tools that everyone is using (e.g current web-based platform) or sustainably-sourced fixes

Embedding minor, yet convenient updates - reduces barriers, increases accessibility

■ Reduce Business friction thereby Supporting Future Growth

Adjust & adapt continuously should gaps arise, through feedbacks

Fix minor inconveniences to stop Snowballing of issues

Build Better Business Image through Consistent Delivery to users (clients). Hence increasing Public Support

KPIs - Key Performance Indicators

Tracking the right KPIs can make all the difference & can be game-changers for long-term success.

Company-wide

Financial: Customer Retention Rate (CRR), Monthly Recurring Revenue (MMR), Profit Margin, Revenue per Square Meter

Engagement & Operational: Lifetime Value (LTV), EBITDA

Per Outlet-wide

For **Staff**: Operational Employee Engagement Score

For **Users**: Net Promoter Score (NPS), Conversion Rate, Growth rate

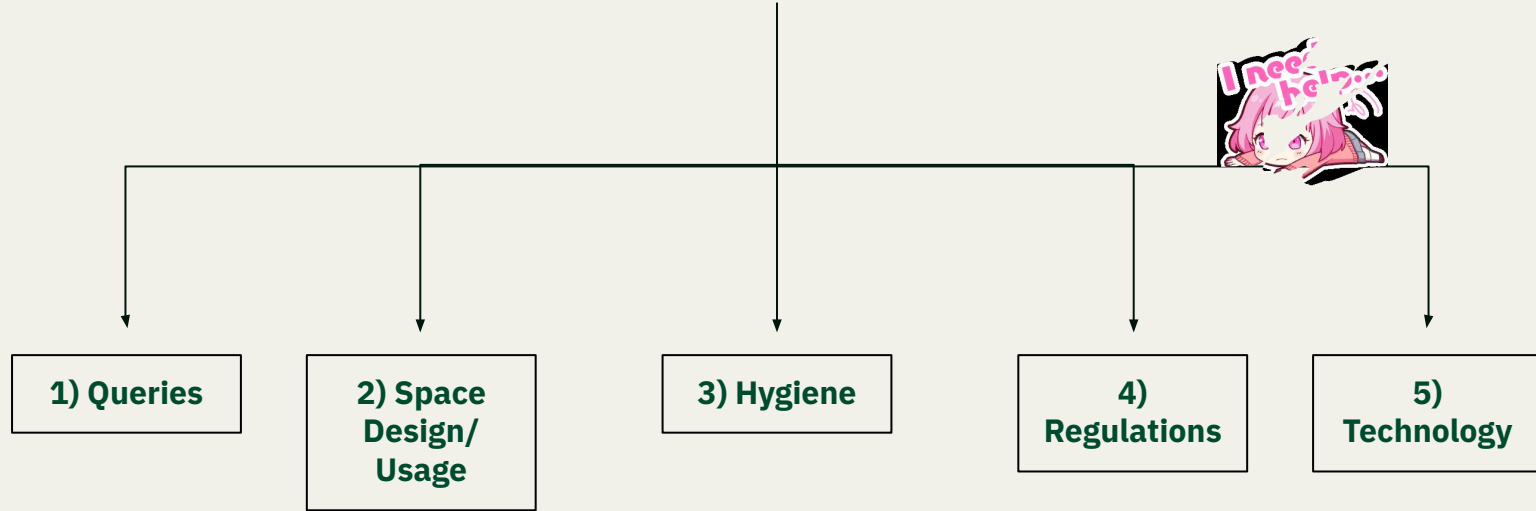

While quantitative kpis largely help, it is also important to convert qualitative kpis into a measurable metric (tricky but doable)

The list is not exhaustive.

3.1 Issues | Gaps - User related (Gym)

What are they facing?

Types	Details
1) Queries	a) Availability of Amenities/ equipment (E.g Stairs Master/ Row Erg/ Calf Raise/ Inbody Scale/ In-Out house shower facilities/ Boxing bag/ Squat racks) b) Unresolved/ Low Receptiveness of feedbacks c) Faulty gym equipment complains
2) Space Design/ Usage	a) Underutilized space (E.g Level 2 Current Delta outlet, Perm-closed Kallang Basin, Jurong Lake Gardens) b) Ambience/ Interior design- dull/old outlook & walls, uneven flooring (E.g Perm-closed Kallang Basin, Tampines Hub, Jalan Besar)
3) Hygiene	a) Limited qty of bacterial wipes provided
4) Regulation	a) Temperature b) Towel & accessories
5) Technology	a) Capacity not accurately represented b) Web platform related (Updates of events/ Filtering of classes) c) Unfamiliarity of system for elderly

3.2 Issues | Gaps - Staff related (Gym)

Managing Expectations, Conflicts & Stressful Periods

- Peak periods (increased waiting times & complaints)
- Limited equipment availability
- Facing aggressive/ rude/ defensive users*
- Facilities directions

Etiquette & Safety Matters

Inclusive of new, young, old, unfamiliar users, sometimes regulars

- ☐ Customer never bring towel
- ☐ Improper use of equipment
- ☐ Safety Hazard of not re racking weights
- ☐ Hogging machines
- ☐ Slamming weights
- ☐ Not wiping equipment after use

Faulty Issues

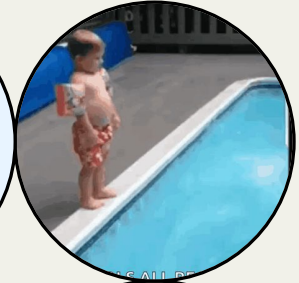

- ★ Complaints & Expectation of immediate repairs for broken equipment
- ★ Entry problem
- ★ Assisting customers (e.g Elderly) with technology system

3.3 Issues | Gaps - User related (Pool)

Pool Safety

- Lack of Parental supervision for Children
- Roughplaying / Running near pool areas / Diving in restricted zones
- Complain of Pool closure during lightning alerts despite regulations in place

Pool Usage

- Overcrowding & Difficulty in Lane Sharing due to Different swim speeds
- Occupancy of space for Swimming lessons

3.4 Issues | Gaps - Staff related (Pool)

01

**Regular
Enforcement of
Attire & Rules**

> Leading to Confrontational
situations

02

**Management for
Hygiene Incidents**

E.g Vomit/Faecal
contamination

03

**Overwhelmed by
customer
enquiries**

E.g Pool schedules, locker
facilities, Swimming classes,
Lost & Found items

04

**Management of
Peak periods**

> Large crowds with
aforementioned issues

3.5 Issues | Gaps Analysis

KEY ANALYSIS - USER & STAFF

- 01 User 's frustration, inconveniences & distrust in System, Technology & Organization.
- 02 Staff's Increase stress & inability to handle with Overwhelming Issues & Conflicts.
- 03 Lack of Proper management in Peak period
- 04 Safety & Hazard issues
- 05

KEY ANALYSIS - TECHNOLOGY & FACILITIES

- 01 Accumulation of Issues due to Low Receptiveness of Feedback
- 02 Systems & platforms not efficiently being leveraged on
- 03 Lack of Communication between Organization with Stakeholders (Users & Staff)
- 04 More can be done to enable User & Staff
- 05

4

Solutions:

Intro:

In this section, we explore what can be done & improve on to fix gaps using systems & tools.

Proposal:

Using the Systems & Tools, ActiveSG/ Sport Singapore has in place in engaging with the stakeholders

Expected Outcomes:

How to Navigate through Changes & Expectations.

How to receive feedback & adapt in the Future.

4

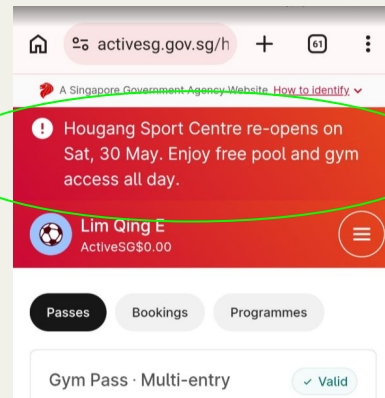

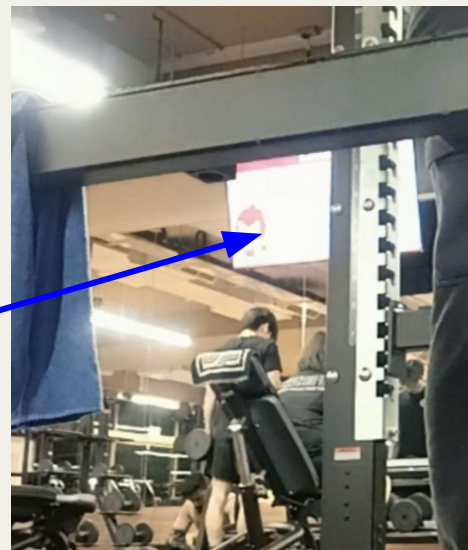

■ Proposal 1: Leveraging on Socials (IG/FB/TT)& Web-based Platforms

Spreading Awareness:

- a) Spreading **Awareness** of Regulations & Safety Requirements using Compelling short **Videos** & Visuals
- b) Provide **Comprehensive & Impactful Online content** (Replay-able on various technological platforms)
- c) Target **all** possible users through various platforms

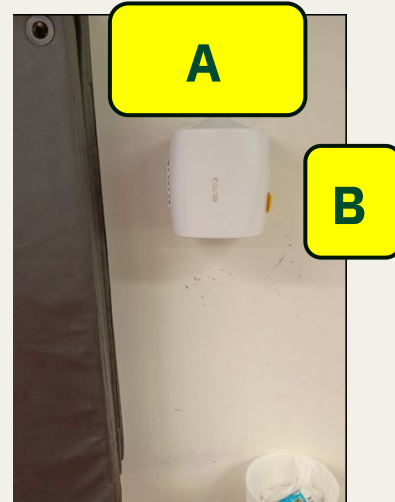

Equipping users with Updated System:

- d) **Updating Tech Platform** (website)
 - Adding a proper **Filtering Tool** (to check availability of equipment/ filter classes efficiently. Not case-sensitive & better UI/UX)
 - Enable **Web Push Notifications** to Users for: Peak periods/ Full Capacity Gym or Pool/ Temp closed Outlets/ Reminders
 - or Others

■ Proposal 2: Improving Facilities

- a) Adding **eye-catching** Visible **Indicators** in gym & pool at **Strategic Locations** E.g Meaningful Notices & Video reminders (Can replay content made in Proposal 1 in Gym/Pool **TVs**) & Consider using **Speakers**/sound reminders
- b) Tackle Gym Hygiene Issue by **equipping both** Wipes & Spray-Duster Combo
- c) Revamp when facilities' standard has reached a certain **threshold**
- d) Adding desired Equipment (Based on **Community's interest**) in Underutilized gyms

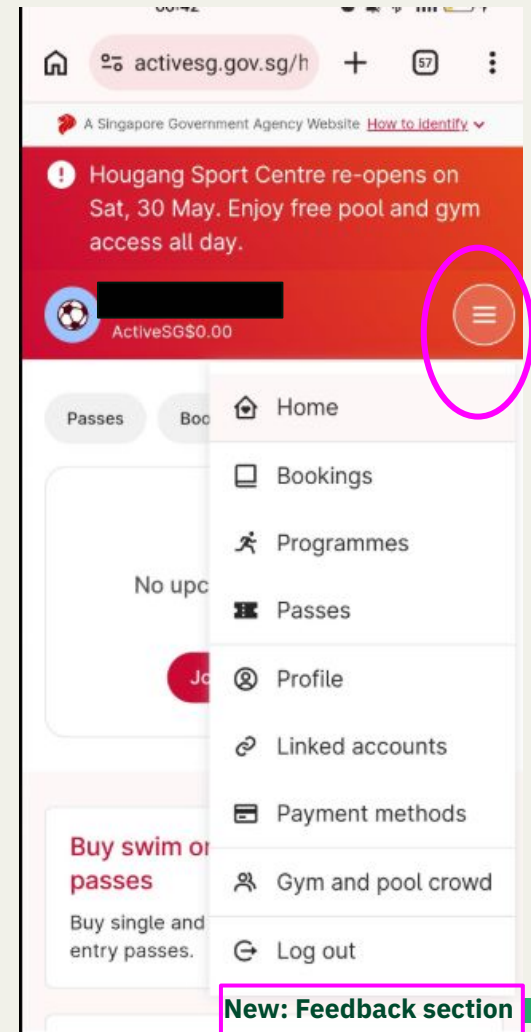

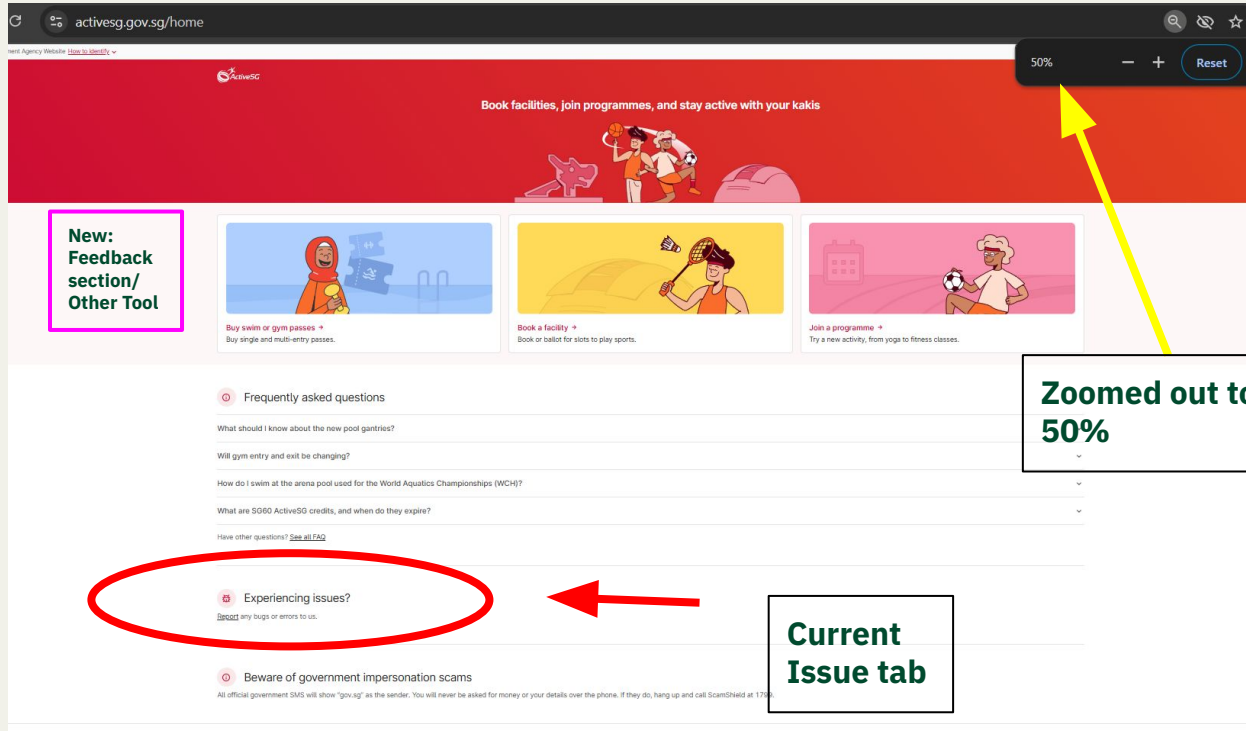

■ Proposal 3: FeedBack Outlet

Tool: QR Code/ Feedback Tab on Website made more **Pronounced** & Clearer **Traceability** throughout the process

Promotes better Communication, Clarity, Responsiveness, Accountability

Laptop & Phone View of Platform

4

■ Proposal 4: Adding a Proper workflow/ tool to enable Staff

- a) **Managing peak** periods
- b) **Conflict/ Incident resolution**
- c) Managing multiple enquiries
 - research more into how they currently handle & how to navigate
- d) **Build teamwork & morale** amongst employees
- e) Consider regulating physical Staff meetings E.g Quarterly
 - **Leverage** on **Staff's** insider knowledge & experience in the Fitness scene

■ Proposal 5: Pool Lane Management System

- a) Different Speed lane Regulation
- b) Keeping “right **rule**” for Users (Similar to the culture of standing on the left for Escalators)
- c) **Communication & Awareness** through Visuals, Sound & Automated reminders

Tackling Feedbacks by Urgency levels (another workflow)

Assuming proper feedback workflow has been set up

Low

Aspects where Ambassadors can assist the Users at

- E.g Common Enquiries at non-peak periods

Medium

Issues are still valid in its effect.
May require more time & a professional help to rectify.

- E.g Faulty Machine

High

Requires IMMEDIATE assistance for such incidents, proper verification from official staff & further escalation.

- E.g Vomit Incident/ Someone fainted

Follow-Up

- Can apply KPI/metrics to compare effectiveness
- Inculcate continuous efforts to gather & resolve Feedbacks

■ Objective 1

Reduce Gaps & Complaints in the Facilities through Effective Solutions

■ Objective 2

Manage Expectations for Users & Promote a Healthy local fitness culture

■ Objective 3

Tackling Issues & Stress for employees in both Gym & Pool, thereby Fostering a Collaborative Spirit

6

FAQ | References & Sources

Secondary research:

- Through screening of Multiple reviews on Individual Gym & Pool Google reviews
- Others include reddit & tiktok videos
